Academic Background

- Electrical Mechanical Engineer
Tecnológico de Monterrey, Mexico (1981)
- Master's in Electrical Engineering (Power Systems Analysis)
Clemson University, United States (1987)

Work Experience

- Universidad Privada Boliviana – Cochabamba, Bolivia (1998 – Present)
 - Director of Institutional Relations
 - Senior Advisor in University Development
 - Dean of the Faculty of Engineering and Architecture
- Independent International Consultant – Cochabamba, Bolivia (1994 – 1998)
- Planning Engineer – Empresa Nacional de Electricidad, Cochabamba, Bolivia (1987 – 1993)
- Teaching and Research Assistant
 - Clemson University, United States (1984–1987)
 - Tecnológico de Monterrey, Mexico (1982–1983)

Other Roles

With over three decades of experience in institutional leadership, I have held key positions in various organizations.

At the Universidad Privada Boliviana, I represent the institution before business organizations and advise the Student Society.

As a director since 1994 of the San Agustín Educational Foundation, I have also served as president and vice president, contributing to strengthening education in Bolivia.

In the corporate sector, I have served as a board member for prominent companies such as Empresa Eléctrica Corani S.A. and Empresa Eléctrica Valle Hermoso S.A., as well as the Foundation for Technological and Agricultural Development. At the Departmental Council of Competitiveness, I acted as both director and vice president.

I have also promoted sports development as president of the Cochabamba Racquetball Association and supported youth leadership as an advisor to AIESEC and the Yuqui-Yasu Indigenous Youth Organization.

In the Society of Engineers of Bolivia, I have held various roles, including departmental president in Cochabamba. Additionally, I have been a founding member of several technical and academic institutions, contributing strategic vision and dedication to social and professional progress in Bolivia.
